

Product introduction

Series **GREEN STAGE**

ZERO STAGE Engine Oil 10W-40 API SN/CF

Zero Stage engine oil 10W-40 SN/CF is a gasoline engine and diesel engine compatible with SN standard and CF standard of viscosity grade 10W-40.

Respond to market needs seeking to improve the performance of engine oil that emphasizes environmental protection and economic efficiency and due to the functions of detergent dispersant and acid neutralizer contained in oil, it protects the interior of the engine from oxidative degradation due to acid gas unique to diesel engine and contamination by carbon.

Typical Properties

Kinematic viscosity	mm ² /s (cst) Kinematic @ 40° C	102.00
Kinematic viscosity	mm ² /s (cst) Kinematic @100° C	14.76
Flash point (COC)	° C	210
Viscosity index		150
Pour point	° C	-38.0
Base number	mg KOH/g	7.10

Features

■ Performance and economy

It is a combination gasoline engine and diesel engine which blends high performance base oil and carefully selected additives and balances oil performance and economy.

■ Multigrade engine oil

It is a multi grade engine oil of viscosity grade 10W-40 which ensures engine startability at low temperature and oil film retention at engine sliding at high temperature and high load.

■ Reduction of harmful components in exhaust gas

By incorporating and optimizing friction reducing additives, engine performance is improved and harmful components in the exhaust gas are reduced.

Packing 4 L can / 200 L drum
